

Tree Tie

Jute Tree Tie

The Jute Tree Tie is made of strong, 100% recycled woven jute. The added advantage of using jute is that it does not cut into the bark of the tree. The tie is secured to the tree stake using tacks.

It has a tensile strength largely comparable to that of the Nylon Tree Tie. The Tree Tie remains in place for two growing seasons. The decomposition process commences after three years, so that if one forgets to remove the tie, it will simply decompose naturally.

Material

- Jute
- Color: beige
- Roll Length: 25 m¹
- Width: 7 cm
- Biodegradable

Dimensions

Type	Length	Width
Jute Tree Tie	25 m ¹	7 cm
Nail 400 PCS (2,5 kg) per box	40 mm	3,1 mm
