

Exterior

Tree Trunk Guard

By using Tree Guards you offer the tree protection from external influences. Tree Guards in combination with our Tree Grilles offer you both aesthetics and functionality as a total solution. Simplicity makes our Tree Trunk Guards functional and robust. The right construction and materials make the Tree Trunk Guard suitable for the public space.

Our Tree Trunk Guards are equipped standard with a bracket with M10 assembly holes. Because of this, they are easy to assemble on our Tree Grilles or on the existing foundation.

Material

- Corten steel (Spring, Autumn and Winter)
- Galvanised steel + RAL Powder coating
- Galvanised steel
